# Cover Letter

Dear Sir/Mam,

I am excited to apply for the [ ] position at [ ], as advertised on University of Waterloo's WaterlooWorks. I recently graduated from the University of Waterloo with a Bachelor's degree in Honours Computer Science, which has provided me with a solid foundation in data structures and algorithms.

In my most recent work experience, I have worked on the development of RESTful APIs using Spring Boot and Hibernate in integration with an SQL Relational Database. In my other experiences, I had built an interactive website from scratch using React and Redux for Southern Ontario Cricket League. My knowledge of web development technologies coupled with my experience in front-end development, has enabled me to create user-friendly and responsive web interfaces.

As a detail-oriented problem solver with strong analytical skills, I am confident that I will be able to tackle complex software development challenges with ease. Additionally, my excellent communication and collaboration skills will enable me to work seamlessly within a team, ensuring that projects are delivered on time and within budget.

I am passionate about software development and am always eager to learn new technologies and techniques. I am confident that I will be able to use my skills and expertise to make valuable contributions to the team and to help achieve your goals.

Here is my portfolio: https://ankushhkumar.github.io/portfolio

Thank you for considering my application. I look forward to the opportunity to discuss how I can contribute to your team as a [ ].

Sincerely,
Ankush Kumar
University of Waterloo
